

Taking Back America's Children is a grassroots campaign working to reclaim our schools from activists imposing harmful educational agendas.

Through a network of efforts on local, state and national levels, we are fighting indoctrination in America's classrooms, and calling for the promotion of a return to the values and patriotism upon which our nation was built and which every democracy needs to flourish.

Our strategy starts county-by-county, state-by-state:

- Unmask revisionist history curriculum like Common Core and the 1619 Project
- Reinstate curriculum containing foundational Judeo-Christian values
- Combat Marxist ideology and Critical Race Theory in schools
- Block Antisemitism and Holocaust revisionist history in curriculum

## TAKING BACK AMERICA'S CHILDREN

## THE PROBLEM

While America slept, an insidious plan to rob our nation of its future leadership was played out unchecked in the U.S. Educational System. Textbooks devoid of truth on the history of America with carefully crafted messaging that includes anti-American, anti-Judeo Christian and anti-Semitic content have now openly become the designated norm in classrooms across the nation.

## THE HISTORY

For decades now, millions of caring parents unknowingly "kissed their children goodbye" at the steps of the friendly yellow school bus.

Marxist values have increasingly been indoctrinated in innocent young minds while the Judeo-Christian values and patriotism upon which America was built have been systematically despised. Our young people demand "social justice" for causes backed by terrorism. They demand freedom from capitalism with no knowledge from the history of what vile bands of bondage on human freedom marxism will enact on their own lives and the lives of their future children and grandchildren. This is happening to our children in the very nation "The Greatest Generation" died on foreign shores to preserve for them.

## THE CHALLENGE

Activists have targeted public, private and charter schools across America to impose toxic new curricula and to force our children into diverse "identity groups" based on race, ethnicity, religion and gender.

Couched in vague slogans such as "social justice," new curricula such as Critical Race Theory, the 1619 Project, the Ethnic Studies Model Curriculum and the radically anti-Semitic Black Lives Matter, divide children into "oppressors" and "oppressed."

Other studies seek to bring gender confusion. The take-away for our children is a division based on guilt and shame or grievance and anger. It is an incubator for racism and radicalism. Parents who protest are now being attacked as bigots who must be shamed into silence.

## THE SOLUTION

We must unite as parents, grandparents, concerned patriots and all good people of moral conscience who love America and wrestle the wheel of influence and control of the educational system in our nation away from those forces who would destroy all we hold dear — our history, our Founding Fathers, our liberties, our freedoms, our values and our God.

We are one nation under God. "How you will ask?" With unity.

"Good" must coalesce with more strength and resolve than the evil we face.

How will future generations know of the true glory of the land of the free and the home of the brave if we, in our generation, allowed it to perish? Marxist textbooks of the future will decry our nation and the God who oversaw the destruction we allowed.

We must stand with one voice!

We must say with one resolved voice: NO!

Is it too late for us to make a difference?  
Only if we wait one more day!
